

I am writing on behalf of not only the Air 1 station that I listen to, but also for ALL those similiar stations that are public supported.

Do not change LPFM regulations that could jeopardize any of these positive alternative stations. Localism in broadcasting was initiated to promote and strengthen localism. However, Air 1 and stations like it already serve a very important role to christians in the local community by providing not only education and therapy, but also by promoting values that don't include materialism, sex and the "me first" attitudes of today's society.

There are very few Christian broadcasters and if Air 1 were to be displaced, my community would greatly suffer the consequences.

I believe these stations provide an invaluable service of educating my community on how to make a positive difference in the world. It has saved lives and turned people from harmful lifestyles. The fact that Air 1 is solely public supported for its operational budget speaks to its value.

Many experts state that "harmful" messages can cause people to kill or harm others, (you need only mention Columbine to confirm this), so we cannot in good conscience allow LPFM stations to take priority over these positive alternative stations of Air 1 and all of those that are similiar for the sole sake that they are locally owned.
